Year of the Water Tiger – Looking back to move forward

- **For a chaotic past two years, we have the Metal Rat and Metal Ox as the kings ruling the years. Both are militant Zodiac animals, which are combative and aggressive in support of an economic, political, or social cause.**
- **In 2020, year of the Metal Rat, we had COVID-19 pandemic, combative behaviors, and violent crime.**
- **In 2021, year of the Metal Ox, we had the COVID-19 vaccines, COVID-19 variants, combative behaviors, violent crime, supply-chain chaos, and employee's mental health issues.**
- **In 2022, here comes the Water Tiger giving us good luck to accelerate the recovery & leap forward for better living and work.**
- **The Yang Water element, holly water, is a sign of freedom to movement, wisdom to make good judgment- logic/data over emotions, cool heads prevail, nutrients to new growth, and the waves for sea changes.**
- **The Tiger is a sign of traveling, making changes, explosive energy, upward mobility, as well as a sense of justice to expel evil spirits.**
- **The Water Tiger provides water (chemistry) & wood (plants) to support new drug discovery for several miracle pills to treat COVID-19 viruses.**
- **In 2022, the COVID-19 pandemic becomes epidemic. The world will live with this new seasonal respiratory diseases just like the flu.**
- **We will see a healthier community and a growing re-opening economy, as well as people are busy traveling and having fun; some even take space traveling too.**

Year of the Water Tiger– Key Takeaways (I)

- **Tiger is a Travel sign in I-Ching. We will see a lot of relocations, air travel, cruises, traffic jam, and even low-orbit space travel beneficial to hotels, restaurant, entertainment, tourism, and transportation business. More Californians are relocating to other states.**
- **A new era of space competition between United States & China; whoever wins the space race remaining or becoming the next Superpower. The last Space Race is between Soviet Union & United States from 1957 thru 1975.**
- **As the Water Tiger is a sign for new drug discovery thru chemistry and plants, we should have several Western and Chinese miracle pills to treat the COVID-19 virus effectively. By June 23, 2022, the COVID-19 virus variants become much less deadly and cause just like ordinary seasonal flu.**
- **The Water Tiger is a rainmaker in 2022 with deluge of rain to replenish rivers and reservoirs. The deadly storms bring flooding and properties destruction. Perhaps drought in the Western United States (including Bay Area) is over.**
- **Tiger is a sign of invasion & attack. Southwest and Middle-east countries are being targeted for military action.**
- **China may have an upper hand in military confrontation with India on border dispute.**
- **President Biden successfully negotiates a peaceful outcome from the crisis of Russia's Invasion of Ukraine. This is an example of history repeats itself in 60 years cycle: In 1962, we had Cuban Missile Crisis, a confrontation between the United States and the Soviet Union (16 October – 20 November 1962).**
- **Tiger contains strong fire energies, so we will have incidents of shootings, missile firings, bomb blast, wild fires, fires caused by liquids/gases, volcano eruption, and nuclear testing.**

Year of the Water Tiger– Key Takeaways (II)

- **U.S. economy will continue to grow due to strong consumer demand and capital spending. The economy will likely grow by 4% level.**
- **Fed would raise interest rates by June and November.**
- **The U.S. stock market is still volatile like the ocean wave and continuing to hit new highs, but we should brace for a tough year. There is a strong possibility of a bigger market sell-off in 2022 as 60 years ago we had the Flash Crash of 1962. Yes, it was a stock market massive decline from December 1961 to June 1962 after a huge run-up in 1961. During this period, the S&P 500 declined 22.5%. We should not ignore warnings of bubbles past. Raising cash, owning dividend stocks, and an effective hedging risk management will be critical in 2022.**
- **For the post-COVID economic recovery, favorable stock picks include Financials, Oil & Gas, and Cyclical industries (Airline, Auto, Auto components, Construction, Steel, Semiconductor, Hotels, Restaurants, Leisure, Textile, Apparel, and Luxury goods).**
- **More Merger & Acquisition deals in 2022 additional to company share buyback activities. The forceful tiger will ignore friendships, synergy, and cooperation to launch attack or hostile takeover of business when friendly deals were falling apart. The merger & acquisition (M&A) wave of businesses will go wild with increasing frequency than last few years.**

- **Gold prices are rising due to the ongoing global inflationary pressure, increased industrial demand for gold & silver as well as investment demand for bullion. It appears that the Gold prices will upsurge and reach the peak from August 5 thru September 21.**
- **The landscape for the real estate market is being changed: the high inflation is already here and rising, interest rates are being raised, baby boomers are cashing in and down-sizing, and the flexibility with remote working is increased. Hence home prices will continue to rise across the region, but at a slower pace. So 2022 should be a better market for many buyers.**
- **Millennials turning 29, particular for high earnings (“Henry”) in Hi-tech, Health Care, & Financial/MBA sectors, will buy their first-time homes and the oldest Millennials are increasingly trading up.**
- **Except for Southwest & Heartland cities, the real estate market should remain steady with good price growth; particularly in San Jose-Sunnyvale, Fremont, Milpitas, Sacramento-Roseville-Arden-Arcade, Reno, Napa, Boise, Salt Lake City, Seattle, Orange County, Oxnard, Riverside, San Diego, Phoenix, Austin, Miami, Tampa Bay, Atlanta, Charlotte, Boston, Washington, DC, etc.**
